

### *First Step of Learning Construction Management*

Apart from providing an academic and informative platform, Manomav academy has taken the initiative to bridge the gap between the academics and industry, to build the interactive and learning environment for the students where one can get to know about the different aspects related to the overall field of construction at the right stage.

## MANOMAV ACADEMY

(An initiative to create an Interactive construction society for the students.)

### **About Us**

Manomav Academy constitutes group of highly skilled professionals from L&T constructions and IIT Alumni who have come forward and taken the step to upgrade the learning of students by providing practical exposure to the students through this platform.

**MANOMAV ACADEMY**

<https://academy.manomav.com/>

You can also follow these links.

*GAINING SITE EXPERIENCE*

A TRAINING COURSE HAS BEEN STARTED TO PROVIDE PRACTICAL EXPOSURE TO THE STUDENTS OF DIFFERENT COLLEGES, KEEPING IN MIND THAT PRACTICAL KNOWLEDGE IS PREREQUISITE FOR THE CONSTRUCTION INDUSTRY.

*Long way to go with these experiences.*

### **Total Duration of the course: 13 days (which includes)**

- ∞ Practical exposure of the construction sites for 10 days.
- ∞ Overview of an AutoCAD (its designing, opportunities through this, importance) for 2 days.
- ∞ Online courses of 6 hours.

*Students can also continue their sessions of AutoCAD at the respective AutoCAD centers after the completion of course.*

---

*“This course is free of cost. Students need to register through the google form, (individually or in groups) through the given link and register at the website of MANOMAV ACADEMY to show association with this project.”*

---

One would be able to learn about the procurement process, work of the site engineers, contractors involved for different purpose, Architects, Planning and management , coordination between all of them to lift the project

**This course shall further act as helping hand in reaching to the following platforms.**

- ∞ Beneficial Internships.
- ∞ Valuable Jobs.
- ∞ Building fruitful network in the construction industry.
- ∞ Developing thoughtful way for the startups.
- ∞ Quality guest lectures.
- ∞ Quality and Quantity of Placements.

### **Procedure**

Academy's website would be linked with the contactors and Architects who are ready for association in this project.

Students need to register for this course.

Different contractors will be providing available and finalized time slots for the site visits.

AutoCAD trainers would be called by Training and Placement cell of colleges to have an overview of the software.

Students would go through online courses at the website of Manomav Academy.

*Students need to register through the google form, (individually or in groups) through the given link and register at the website of MANOMAV ACADEMY*
